

“A remarkable story. Will be of great interest not just to dance enthusiasts but to those whose lives are touched by cerebral palsy.”
- *John DeFore, The Hollywood Reporter*

“This is a deeply intimate and compelling story about the intersection of medicine and art, but it’s also a wonderfully unlikely buddy movie. A choreographer and her muse - a performer with cerebral palsy - explore the realm of the body with courage, honesty, and diligence. Their intrepid work yields breathtaking surprises for them personally and the medical community at large.”
- *Claire Danes, Actor*

“Not only revelatory, but profoundly moving.”
- *Deborah Jowitt, Dance Critic*

The unlikely collaboration between a veteran choreographer and a young actor with cerebral palsy delivers astonishing proof that each and every body is capable of miraculous transformation. As Tamar Rogoff trains Gregg Mozgala to become a dancer, they discover that her lack of formal medical training and his fears and physical limitations are not obstacles, but the impetus for their unprecedented discoveries.

Enter The Faun is the story of a joyous, obsessive journey towards opening night. It challenges the boundaries of medicine and art, as well as the limitations associated with disability.
