“Easily the most wildly fascinating artist profiled in a documentary since CRUMB.” -Movies.com

One man's wild, lifelong adventure of testing society's boundaries through his subversive art, *Far Out Isn't Far Enough: The Tomi Ungerer Story* combines traditional documentary storytelling with original animation culled from seven decades worth of art from the renegade children's book author and illustrator.

Using a palette of 20th century events to paint an artist's epic yet controversial life story, the film offers a retrospective of Ungerer's life and art, and ponders the complexities and contradictions of a man who, armed with an acerbic wit, an accusing finger and a razor sharp pencil, gave visual representation to the revolutionary voices during one of the most tantalizing and dramatic periods in American history.
