A BRACING CHANGE FROM THE USUAL BACK-AND-FORTH OF THE EVENING NEWS."

2013 THEATRICAL RELEASE

Before he was convicted of murdering a policeman in 1981 and sentenced to die, Mumia Abu-Jamal was a gifted journalist and brilliant writer. Now after more than 30 years in prison, Mumia is not only still alive but continuing to report, provoke and inspire.

Mumia: Long Distance Revolutionary is an inspiring portrait of a man whom many consider America's most famous political prisoner – a man whose existence tests our beliefs about freedom of expression. Through prison interviews, archival footage, and dramatic readings, and aided by a potent chorus of voices including Cornel West, Alice Walker, Angela Davis and others, this riveting film explores Mumia's life before, during and after Death Row – revealing, in the words of Angela Davis, "he most eloquent and most powerful opponent of the death penalty in the world...the 21st Century Frederick Douglass."
