**THE PROSECUTION OF AN
AMERICAN PRESIDENT**

"Here is the documentary *Fahrenheit 9/11* dreamt of being."
-Chicago Daily Herald

"There is no mistaking Mr. Bugliosi's conviction, nor the thoroughness of his research ... (he) reminds us of how American lives are used as political chess pieces."
The New York Times

Famed Charles Manson prosecutor and New York Times bestselling author Vincent Bugliosi makes the most powerful, explosive, and thought-provoking argument of his storied career.

In 'The Prosecution of an American President,' Bugliosi presents a meticulously researched legal case that puts George W. Bush on trial for the murder of nearly 4,000 American soldiers who fought and died in Iraq. Bugliosi sets forth the incontrovertible evidence that Bush took the nation to war in Iraq under false pretenses, not only causing the deaths of American soldiers but also over 100,000 innocent Iraqi men, women, and children; cost the United States over a trillion dollars; and alienated our many of our allies.

As a prosecutor who is dedicated to seeking justice, Bugliosi delivers a non-partisan argument based on hard facts and pure objectivity. A searing indictment of Bush and his administration, 'The Prosecution of an American President' also outlines a legally credible pathway to holding our highest government officials accountable for their actions, thereby creating a framework for future occupants of the Oval Office. Ultimately, Bugliosi calls for the United States to return to the great nation it once was.
